

# UTICA COLLEGE

## TRANSFER ARTICULATION AGREEMENT

*Utica College*

Health Studies  
(leading to graduate Occupational Therapy)

and

*Mohawk Valley Community College*

Liberal Arts & Sciences  
General Studies: AS

August 2013

Utica College and Mohawk Valley Community College, in recognition of a mutual respect for the integrity of parallel academic programs and in an effort to better serve students intending to pursue the completion of a bachelors degree, hereby enter into an agreement of an articulated program.

**OBJECTIVES:**

1. To encourage the transfer of qualified students from Mohawk Valley Community College (MVCC) to Utica College (UC).
2. To award academic credit for courses completed at MVCC, that meet the terms of the Associate Degree: Liberal Arts & Sciences: General Studies program for application toward the requirements for the Health Studies program at UC, with the intent to apply to graduate level Occupational Therapy.
3. To provide effective and concise guidelines for students seeking to transfer to UC. Students will have accurate and clear information regarding the transfer of their coursework and credits toward the Bachelor of Science degree at UC.

**TERMS OF THE TRANSFER ARTICULATION AGREEMENT:**

1. UC guarantees the acceptance of students who completed the Associate in Science: Liberal Arts & Sciences program at MVCC with a cumulative GPA of 2.5 or better to Utica College. Transfer students who do not meet these criteria will be evaluated individually. In order to qualify for admissions into graduate program students must earn a cumulative GPA of 3.0 or better by the time they graduate with their bachelors degree.
2. UC guarantees the transfer of credit as stipulated in the attached Program of Studies. This agreement assumes the completion of the Associate Degree and completion of the courses listed on the attached Program of Studies. UC requires that the last 30 credit hours granted toward the Bachelor degree must be earned in residence, with matriculated status. Additionally, a Bachelor of Science requires a *minimum of 60 of the 120 credits must be in the liberal arts.*
  - This Agreement is specifically tailored to prepare students for the BS in Health Studies and then apply to a graduate Occupational Therapy program. Admission to a graduate level program is not guaranteed; deviation from the Program of Studies may negatively impact admissibility to a graduate program.
  - Students interested in applying to the Occupational Therapy program would need to complete the following: ANT415, BIO101, BIO102, BIO201, BIO202, GNT101 or 214, HLS101, HLS245, HLS401, HLS445, PHI108, PSY101, PSY211, HLS309, PSY361 and HLS381. Please see the Utica College Graduate catalog for additional information. Students are encouraged to meet with an occupational therapy faculty member for specific advising as early in their academic career as possible.
3. MVCC transfer Students will be subject to all general education requirements of UC as set forth in the UC catalogue.
  - Transfer students with a completed Associates Degree will be exempt from Components I & II of UC's Core Requirements.
  - Students who transfer 30 credits of liberal arts and sciences (with at least 2 courses in each of UC's three categories of Component II Core—including one lab science course) will be exempt from Component II Core.
  - Transfer Students who enter UC with Components I & II complete will be required to complete 3 credits of Component III: Integrated Writing.
4. This document is based upon the evaluation of course descriptions presented to UC. Courses listed in this agreement will transfer to UC provided a grade of "C" or better has been earned. Credit will be granted according to the appended list of equivalent courses or as general elective credit.
5. This Agreement shall remain in effect for a period of two years from the date listed below, with the provision that the terms specified herein will continue to apply to the students admitted from MVCC's Associate in Science: Liberal A&S: General Studies within one year of the expiration of the agreement. Each institution agrees to provide timely notice to the other in the event of any modification to the curriculum that might affect the compatibility for admission and transfer of coursework. This agreement may be subject to change, without notice, if curriculum requirements change at either institution. Students admitted to MVCC's Associate in Science: Liberal A&S: General Studies program prior to such notification shall be admitted to UC on the basis of this agreement.

**BENEFITS/ADVANTAGES:**

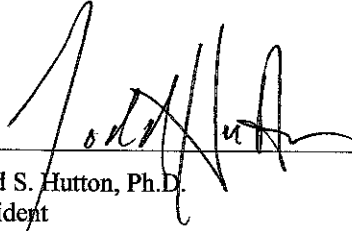

1. MVCC transfer students are eligible for scholarship and financial aid in all ways the same as continuing Utica College students.
2. Utica College will provide housing in campus residence halls within the guidelines and practices governing availability of housing for continuing students.
4. MVCC transfer students are eligible to participate in internships, externships, co-ops, field placements and study abroad opportunities open to continuing Utica College students.
